

YES

on Issue 5 –
Ohio Can't
Afford Not To

Today's fragile economy has many Ohioans teetering on the brink of financial ruin. So why are payday-lending stores fighting for the right to charge up to 391% interest on their loans? Because it makes them richer. Consumers certainly don't benefit!

Issue 5 would approve a law setting reasonable regulations on the payday-lending industry - including lowering the maximum allowable interest rate from 391% to 28%. If you're tired of modern-day loan sharks charging usurious interest rates to our most vulnerable citizens, **vote yes on Issue 5.**

YES, 391% is too much!

Vote YES on Issue 5.

DON'T GAMBLE ON GAMBLING - VOTE NO ON ISSUE 6

Some people never learn! Ohio voters rejected expanded gambling in 1990, 1996 and 2006, but the industry's back with a dubious scheme to put a lavish casino-resort in Clinton County. They say Issue 6 will boost Ohio's economy - but all it's certain to do is enrich the out-of-state investors who'll take their profits home with them.

Gambling destroys lives, marriages and families wherever it's welcomed. We've told the gambling industry three times that we don't want them in Ohio, but it's time to tell them again. **Vote No on Issue 6 to keep the casino out.**
